Feb 2015 | Tae Kwan Do
Black Belt

PROFILE

- Junior Software Developer with Full Stack architecture knowledge, nearing completion of coding traineeship bootcamp course at IT Career Switch.
- Accustomed to leveraging cutting-edge technologies to design robust web applications.
- Proficient in front-end development (HTML, CSS, JavaScript) and back-end development with PHP and AJAX.
- Committed to writing clean, scalable, tested code using SOLID principles and staying updated with industry trends.

PROFESSIONAL EXPERIENCE

• **Gazetteer**

Portfolio project that builds on the Leaflet.js map library to provide functional and informative data about countries around the world. Data retrieved using RESTful apis via AJAX function calls. Marks user location and provides data in real time.

Tech stack: PHP, JavaScript, HTML5, CSS, Bootstrap, JQuery, Leaflet.js

• **Company Directory**

Portfolio project that uses MySQL and PHP on the back-end to modify the database, integrated with JavaScript, jQuery and AJAX to communicate with the front-end, which uses HTML5 and CSS, and Bootstrap to create the visual layout of the system.

Tech stack: MySQL, PHP, JavaScript, HTML5, CSS, Bootstrap, JQuery

ADDITIONAL EXPERIENCE
